Summary

Front-end developer with skills in HTML, CSS and JavaScript. Obtained certification in full-stack development from University of Toronto in July 2020. Very organized, and able to work both independently and within a team. I am passionate about creating websites that are simple, nice, and user friendly.

Technical Skills

Front-end: HTML, CSS, Materialize, Bootstrap, JavaScript, jQuery, web API, ES6

Back-end: Node.js

Projects

Budget your budget | <https://gh0stl0nely.github.io/Budget-your-budget/>

- This is a group project that helps people plan their monthly expenses and project their saving amount after 5 to 30 years, with graphs showing.
- My responsibilities are designing the layout of the page, checking user inputs before proceeding to calculation, and function that allows users to add new categories.
- Tools / languages used: HTML, Materialize, JavaScript, API's

Weather Dashboard | https://demiwu96.github.io/Weather_Dashboard/

- The user can check current weather and 5-day weather forecast at certain time of their choice. Recent search history will be stored on the side for users to access in the future.
- Tools / languages used: HTML, bootstrap, JavaScript, jQuery, Ajax, OpenWeather API

Daily Schedule | https://demiwu96.github.io/Daily_Schedule/

- The user can add and delete daily tasks to the time blocks. Current, past, and future time blocks are shown in different colors.
- Tools / languages used: HTML, bootstrap, JavaScript, jQuery

Education

Bootcamp Certificate: University of Toronto, Toronto, ON
