Summary

Front-end developer with skills in HTML, CSS and JavaScript. Obtained certification in full-stack development from University of Toronto in July 2020. Very organized, and able to work both independently and within a team. I am passionate about creating websites that are simple, nice, and user friendly. I am excited to use the skills I learned from University of Toronto in my future job.

Technical Skills

Language

Front-end: HTML, CSS, JavaScript, jQuery

Back-end: Node.js

Projects

Budget your budget | <https://gh0stl0nely.github.io/Budget-your-budget/>

- This is a group project that helps people plan their monthly expenses and project their saving amount after 5 to 30 years, with graphs showing.
- My responsibilities are designing the layout of the page, checking user inputs before proceeding to calculation, and function that allows users to add new categories.
- Tools / languages used: HTML, Materialize, JavaScript, API's
- Link to Github: <https://github.com/demiwu96/Budget-your-budget>

Weather Dashboard | https://demiwu96.github.io/Weather_Dashboard/

- The user can check current weather and 5-day weather forecast at certain time of their choice. Recent search history will be stored on the side for users to access in the future.
- Your core responsibilities in project (1-2 lines)
- Tools / languages used: HTML, bootstrap, JavaScript, jQuery, Ajax
- Link to Github: https://github.com/demiwu96/Weather_Dashboard
